Bio:

Tagline:

Mixing jazz, folk, blues & pop into our own rootsy stew.

Short:

Cousin Louis will take you on a bluesy, jazzy journey from the roots of American music to contemporary covers and originals, with Trish Reid on vocals, Gene Albert on bass, and Ken Karnofsky on guitar.

Long:

Cousin Louis is Ken Karnofsky [guitar], Gene Albert [bass], & Trish Reid [vocal]. We formed the band in 2019, after bonding over our shared passion for jazz, blues & folk artists. Since our first, spontaneous performance at a music retreat, we've been mixing a rootsy stew of originals and deep cut covers into our own distinctive sound. Our first EP, *Land of Rhythm & Blues*, is available on [Bandcamp](#), and original singles are streaming now.

Blurbs:

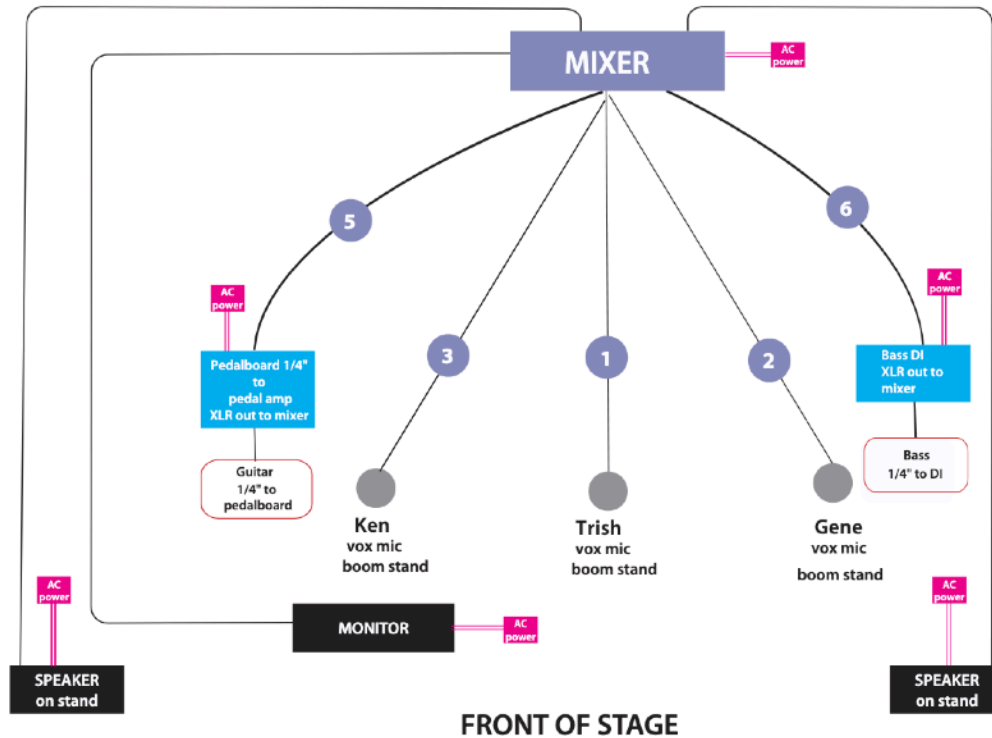

"The trio plays a fantastic mix of music. A fun start to the weekend." -Matt C

"Every year Cousin Louis' music is one of the highlights of Spy Pond Fun Day. They enthrall listeners with their delicious, crisply-played, and soulfully sung jazz, pop and blues." -Betsy L

When I brought in performers for my Coffeehouse Series at the Parish Center for the Arts, I looked not only for good musicianship, but also for the intangibles that make a good show great. Things like relating to the audience, band "chemistry", and having a good time on stage. Cousin Louis had all those things, and the result was a wonderful show. Thanks for that!!! -Nick P
